

A young child with dark, curly hair is sitting on a gravel path. The child is wearing a dark blue short-sleeved shirt and is looking towards the camera with a sad expression. The background shows a row of simple, light-colored buildings with blue awnings, typical of a refugee camp. A black trash bin is visible on the left side of the path.

HIGHLIGHTS '16

Looking back at 2016, we realize what we have accomplished with our small team.

- At the start of the year we only had Lida and Esther as paid staff members. However over the year the team expanded. First Roel joined in February as our warehouse manager; then Corine strengthened our admin team in September; followed by Edwin in October as warehouse operative. In addition Sanjay and Sarah both joined us for a 6 month internship.
- Ilse was seconded to us for 6 months by a large logistic corporation, coaching HRIF on our logistics processes. During this period we automated our logistic processes, reorganised the warehouse and further improved our strategy when approach companies for GIK. We are very fortunate that Ilse is still very much involved in various HRIF projects.

- This year we were able to improve on quantity and quality of the Gift in Kind we accept. We now have more new goods and additional companies who regularly donate their surplus stock to HRIF. Many well-known brands passed through our warehouses in 2016. A huge increase of donated pharmaceuticals was received, due to our increased control over our logistic processes.
- Moreover HRIF was able to focus on humanitarian aid support to Kurdish Iraq in 2016. Both David Lazowski and Max Veenstra were involved in establishing Bring Hope Humanitarian Foundation in Erbil. This enables HRIF to have full control of logistics and distribution of humanitarian aid..
